

# Don Bosco Relief Services

INM – Chennai Province

## Big Things Start Small

‘Stay at Home and be safe’ – is not a reality for the migrants and unorganised labourers. They have to work every day to have their livelihood. Many are from other states. Children cannot stay inside their houses. The coronavirus outbreak has a major outbreak on two of the most vulnerable communities in Tamil Nadu, the migrant workers and the people for the unorganized sector like construction and brick kiln. Due to the lockdown, they are neither able to return to their homes nor can they continue living in their workplace, because of the companies shut down. The Government is reaching out to the migrant workers, the critical gap and our assistance reach out to those migrant workers who are not in the government shelters, those migrant families who continue to stay at the construction sites and brick Kiln sites.

The food package includes Rice, cereals, oil, Jaggery, wheat flour, fruits, vegetables, and masala items.

Hygiene kit will include: Essential supplies such as soap, face masks, Dettol and coconut oil and sanitary pads.

Special baby kit for children below two years include baby food, biscuits and snacks.
